

Manter[®]
WEIGHING & PACKAGING EQUIPMENT

**Engineered for you,
Built to last.**

We are Manter

Manter International B.V. develops and manufactures weighing and packaging machines for potatoes, vegetables and fruit and various other products, mainly in the agricultural and food industry. Our machines are developed and assembled in one location. As a result, we offer a complete, high-quality collection of machines that fit together perfectly and work together efficiently. Our machines are known for their robust design, high accuracy and excellent performance.

Our advantages

- One partner for high-quality weighing machines, packaging machines and palletizers.
- Reliable machines with a long lifespan and low Total Costs of Ownership.
- High accuracy and speed, partly due to our in-house developed software.
- Installation and service by trained specialists worldwide.

**Worldwide export
to more than 75
countries.**

Complete solutions

WEIGHING | PACKAGING | PALLETIZING

Robust design

User friendly

Low maintenance

Committed partner

You have also come to the right place for customization. By working with the best partners in the packaging industry, our services go beyond our own machines. This ensures that your entire process of sorting, weighing, packaging and palletizing runs smoothly. Would you like to know what we can do for your company? Please feel free to contact us.

Manter Palletizers

Our complete range of palletizing machines is developed and built by Solidtec and in the fresh produce sector we sell under our own brand name. For our customers, this means that the Manter sales network becomes even more of a one-stop-shop: one point of contact for all end-of-line solutions.

ST40

The ST40 is a fully automatic palletizing machine with servo motors that can process up to 32 bags per minute.

Full-service partner

Your specific wishes and requirements are our top priority at Manter. And this service does not end with delivery. All our employees have extensive knowledge and experience, so that they can provide you with the best possible advice and support. Furthermore, Manter ensures short lines of communication to promptly address any inquiries you may have.

The most important advantages

- Experienced service technicians
- Global network with service partners
- Technical support on site or remotely
- Possibility of preventive maintenance
- High uptime of your machines

Service and maintenance

Whether it concerns advice, service or maintenance; At Manter you can count on skilled and qualified employees. Our own engineering team is at your disposal to find the best solutions together. In addition, our expert service team is ready to provide technical support and maintenance. Our service department ensures that the machines continue to function optimally, limiting any malfunctions to a minimum. With more than 25 years of experience, we ensure maximum uptime of your packaging line.
